

C2 MatteBox – Double Filter Stage 4 x 5.65" / 4x4" and 2 housings to combine.

The double filter stage CF-MB/ST is the basis for the MatteBox combinations MB C2.

Various light protection rings for 100 mm thread are available.

Choose MatteBox or SunShade and the Mattebox housing depending on your application.

The MatteBox configuration mounts on the Double Filter Stage **CF-MB/ST**, which includes a multi format filter holder (410-31) for 4x4" and 4x5.65" filters in the first stage and, in the second, a rotating filter-holder (402-04) for 4x4". Both filters slide vertically and can be fixed in any position, the second also rotates 240°.

The Rubber Bellows adapts to the 100 mm Ø (resp. 110 mm, CF-MB/ST110). The Step down Rings with 100/110 mm thread guarantee perfect fit to the lens. Without Rubber Bellows, use Ø 142.5 mm and the respective light protection rings.

The **CWAH-1FC** housing is designed for lenses up to 5.2 mm focal length and max. 4.5mm, provided only the first filter is used with Insert-Ring 410-55, 100:95 mm. The set comes with the French Flag and the Insert Mattes for 16:9. Side-Wings and Bottom French Flag are optional.

Use the **CBH-S16** housing with **bellows and removable mattes** for the Super 16 / 16:9 formats. French Flag and a set of Side Wings are included. The maximum wide angle focal length is 5.2mm (referring to 2/3"HD).
